

# **E.coli** | **360-HCP ELISA Kit**

BioGenes Berlin

**Superior  
Detection for  
*E.coli* HCPs**

# Ready-to-use **E.coli** | 360-HCP ELISA Kits reliable HCP monitoring during drug development and manufacturing

## Features

- Different antibody sets by four antigen preparations with distinct HCP pattern
- High specificity and sensitivity - qualified according to ICH guidelines
- Detection of a broad range of HCPs approved by 2D analysis

## Diverse Antigen Preparations for Higher Specificity

Our enhanced generic 360-HCP ELISA approach provides four kits, based on the different strains BL21 (DE3) and W3110 (DE3) and diverse cell cultivation conditions using LB or Minimal Medium.
